skill based education should be enhanced

No

Current society base

Curriculum should not be merely exam oriented. Rather it should focus more on its practicality and market oriented z

It should fulfill demand of the society as well as industry.. it also adds moral values..

Something must change in syllabus

Something changes

I like all silyabus rileted point.iam always happy to silyabus

अजून थोडासा भर देण्यात यावा बाकी all right

According to my perspective the curriculum should be more transparent and digitalized as we are facing covid challenges since last year. So it would be generous and aiding if the online connection in terms of academic information between students and faculties can be fostered by providing them some valuable information about the subjects. By providing such information on digital platforms students will show active participation in every task assigned by the respective faculty and it will be beneficial for the betterment and enhancement of students and faculties as well .

Syllabus ha student la upyogi padel asha kramic swaroopacha asala pahije...student la helpfull asel.

May be

I think syllabus should be upgraded periodically.

Nothing

It should be upgraded as per the need of time and to enhance such skills amongst the students which may help environmental protection and awareness.

The course is useful but at present it is a bit behind. So I think it should still be deplopped and digital. The college is giving us total help.

Online education is the best education

नवनिर्मिति आणि सर्जनशीलतेला वाव मिळणारा पाठ्यक्रम असावा.
